

# Time

to

# Time

In a world obsessed with doing more, we invite you to

# UNDO®

Now more than ever, we need to take care of ourselves and NOT DO anything from time to time.

It transforms how we feel and how we feel about our world.

Not doing *never felt so good*.

# Innovation born out of love

When Ken Jacuzzi, age 2, was diagnosed with rheumatoid arthritis, his father invented the world's first at-home pump to provide pain-relieving hydromassage. From that moment forward, Jacuzzi has introduced the power of hot, bubbly water into millions of homes around the world.

#### Built with the same care today

Through decades of research and development, Jacuzzi has created breakthrough products that engage the senses, nurture the body, and restore the mind like no other. Now comes the latest wave of innovations— Jacuzzi<sup>®</sup> SmartTub<sup>®</sup>, Red Light and Infrared therapy.

Jacuzzi<sup>®</sup> Brand products are designed to restore balance and heighten the joys and benefits of hydromassage. Our products are enjoyed in more than 100 countries worldwide, and are manufactured by thousands of employees in five countries.

The most extraordinary pause in the world.<sup>™</sup>

Behind this extraordinary pause is the Jacuzzi<sup>®</sup> hydromassage, a distinctive and unrivaled experience. Heat, buoyancy and optimal massage all come together for your relaxation, joy and well-being.

#### Heat

Dilates blood vessels to increase blood flow, delivering more oxygen to the muscles.

## Buoyancy

Creates weightlessness and 360 degrees of support, relieving pressure on joints, muscles, and nerves.

# Optimal Massage

Boosts circulation and releases endorphins, providing relaxation from head to toe.

#### Designed to fit you

By studying human dimensions, we design hot tubs based on the average proportions of 90% of the population, ensuring your hot tub conforms to you. Our seats are sculpted with an ergonomic focus to cradle the contours of the body. Specialized Jacuzzi<sup>®</sup> PowerPro<sup>®</sup> Jets – recessed for your complete comfort – are thoughtfully positioned to effectively target key muscles.

> Depth Tilt Breadth Lumbar Support

Heavy duty, light touch

Aqualibrium<sup>®</sup> is the perfect balance of air and water. Jacuzzi<sup>®</sup> jets are developed with an emphasis on a 360degree air induction to provide a unique high-volume, low-pressure massage. It has the power to bring deeper, more intense massage in a gentle way.

#### You do you

We realize everyone likes their massage a little different. A Jacuzzi<sup>®</sup> hot tub lets you pinpoint the intensity of every touchpoint. The strategically placed jets target specific muscle groups, while a customizable flow and feel at each jet puts complete control at your fingertips. Individual seat air control lets you dial the air and water power up or down, delivering the right massage pressure for your needs. Different muscle groups demand different types of massage action. Versatile Jacuzzi<sup>®</sup> PowerPro<sup>®</sup> Jets deliver a range of massages, from robust and stimulating to gentle and rejuvenating, for targeted relief anywhere you need it.

#### MX

The original performance therapy jet that started it all — Completely adjustable nozzle with a 60-degree range of focus — Produces bold high volume massage action

#### FX

Exclusive spiral design focuses on smaller muscle groups — Stimulates pressure points in the shoulders, back and feet — Spiral flow drives energetic impact

PX Provides relief to pressure points on the hands — Gently pulses on palms and wrists — Can soothe discomfort in the hands and wrists

#### RX

A powerful steady pulse against large portions of the back — Focuses on middle and upper back muscle tension relief — Full coverage massage

#### NX

Highly focused stream of water targeting the neck

Massages tension and strain in the sensitive neck area

Personalize the massage direction by moving the nozzle

#### ΒX

Highest air to water ratio in our collection

Patented design developed to reinvigorate leg muscles

#### Please, be seated

Decades of expertise drive the Jacuzzi<sup>®</sup> hot tub design process to deliver personalized comfort. The collection of seats in every Jacuzzi<sup>®</sup> hot tub facilitates full-body hydromassage while balancing the flow to each seat for the best experience. Seats are complemented by jets on the calves and in the foot dome to lift the weight of the day. Smooth surfaces and soft sculpting make it easy to move freely to enjoy all of the seats. Every Jacuzzi<sup>®</sup> hot tub is expertly engineered to nurture your well-being to the core.

#### MX Therapy Seat

#### The Original in Low-Back Relief

Ease into this deeply contoured seat to release tension in the lower back with a high-volume, low-pressure massage. Maximized air output delivers a soothing deep tissue massage. Paired with neck jets for a fully relaxing experience.

#### FX Therapy Seat

#### Full Coverage Neck, Shoulder and Back Relief

A collection of 10 to 12 FX Jets deliver a stimulating, spiral-action deep tissue massage to relieve aches from the neck and shoulders through the entire back. Pressure is adjustable for a personalized massage. The J-300<sup>™</sup> models feature the Hydrosoothe<sup>®</sup> neck-massaging pillow.

#### Foot Dome

#### **Overall Tension Relief**

A targeted reflexology massage increases energy, boosts circulation and stimulates nerve function throughout the body. This tension-relieving action induces a deep state of relaxation while keeping you in the perfect position.

#### **RX** Therapy Seat

#### Comforting Back and Shoulder Relief

A ring of spinning RX Jets targets key back and shoulder muscles, drawing on the highest performance hydromassage from the Jacuzzi<sup>®</sup> Brand to soothe stiff muscles and release tension. Neck jets complement the massage for extra relief.

#### ProAir™ Lounge

#### Full-Body Relief

Designed to distribute body weight evenly for a comprehensive massage. The ProAir<sup>™</sup> Lounge eases tension in the shoulders and back by combining FX and FX-R rotational jets along the center of the back. Exclusive BX Jets target the calves with an invigorating, bubbly massage and FX Jets penetrate the muscles of the feet with therapeutic relief.

#### A new frontier in wellness

Jacuzzi is the first and only brand to offer Infrared and Red Light therapy across a range of wellness products, from saunas, to swim spas, to hot tubs. Premiering in the J-LX<sup>®</sup> Collection, the FX-IR Seat combines patented Infrared and Red Light therapy with hydromassage for unmatched rejuvenation.

The therapeutic benefits of hydrotherapy

The rejuvenating power of Infrared

The regenerative qualities of Red Light

All working together deep beneath the skin's surface

#### **Rejuvenation Meets Relaxation**

The rejuvenating powers of Infrared and Red Light therapy work together deep beneath the skin's surface to relieve pain, improve range of motion, and reach a state of mindfulness.

# Relax while the water goes to work.

The second s

Ш

#### 5-Stage\*\* filtration process

Cleaner\* water means fewer water changes and less effort for you.

#### Clean\* water, less effort

We've combined ozone and UV-C technology to provide a hands-free approach to water care. CLEARRAY Active Oxygen® System works harder to clean\* the water longer. Ozonated water is exposed to a UV-C bulb to energize the molecules, unlocking Active Oxygen to clean\* more so you clean less.

#### Stages 1 and 2

The skimmer and unique mesh ProCatch<sup>®</sup> bag work together to clean the water surface and trap large debris for easy removal.

#### Stage 3

This exclusive system features a 60 sq ft ProClear® filter connected directly to a ProStream™ filtration pump that filters an incredible 35 gallons per minute, giving you clean water faster.

#### Stage 4

The ProClarity<sup>®</sup> polishing filter polishes the water down to a 3 micron level.

#### Stage 5

The second 60 sq ft ProClear® filter activates and cleans when you are using the hot tub. This doubles the filtration when you need it most.

UV-C technology is standard on all models

\*Clean is defined as the removal of microscopic (down to 3 micron level, varies by model) debris from the water. The CLEARRAY® Active Oxygen® System utilizes various technologies to achieve cleanliness. One of them is ozone, which aids in the grouping of smaller debris to form larger clusters that can be more easily captured in the filtration process.

#### The serenity is in the details

We design spas that perform for years with minimal care. Durable, reliable and designed with you in mind, from the materials chosen to the performance you expect.

#### ProFusion<sup>™</sup> Shell

Highest quality acrylic, a bonded vapor barrier and a resin composite are layered together for ultimate durability, creating an inseparable bond that stands up to heat and cold.

#### **Tool-Free Cabinetry**

Fade-resistant, maintenance-free cabinetry withstands heat and cold and stays beautiful longer.

#### High-Performance Energy-Saving Insulation

All Jacuzzi® hot tubs exceed the California Energy Commission standards for spa energy consumption. Our insulation completely surrounds the shell and fills the cabinet. This lowers operating costs, ensures quieter operation and is reliable in the coldest climates.

#### **Propolymer Base**

A rugged protective barrier insulates the spa from the foundation. The durable ABS-formed foundation protects components from moisture and the elements while adding structural strength.

#### ProLast<sup>™</sup> Cover

Lock heat in with our durable UV-stable, woven polyester outer fabric and EPS foam core. Our ProLast<sup>™</sup> cover protects your spa for years to come. It creates a vacuum seal around the sculpted shell to retain heat and maintain water temperature longer for lower operating costs. Cascading Waterfall An elevated, independent water feature that amplifies ambiance with soothing sound.

#### Peace of mind from anywhere

Our patented, industry-first SmartTub® system provides remote monitoring and control through phones, smart devices, and Siri® and Alexa® wearables anywhere in the world.<sup>\*</sup> All with software updates and a cellular connection that's simpler and more reliable than Wi-Fi. Enjoyment made easy.

#### **Energy Savings**

Smart technology lets you optimize energy savings with industry-first Smart Heat Mode, which monitors, schedules, and adjusts energy usage. Automation reduces standby power by 25%.

#### Convenience

Track energy usage reports, pair with smart devices, and enjoy new features updated automatically.

#### **Full Control**

Adjust temperature, jets, and lights, and lock down your hot tub to prevent usage, whether home or away.

#### Peace of Mind

Smart sensors send automatic alerts to you and your dealer if your hot tub needs attention, such as for power outages, freezing, or overheating.

Actual SmartTub® owner's review

"I keep the temp low (96°) when I'm out of town and just click the app on the way from the airport and... voila! It's 101° when I get home."

Live in the moments you choose

No matter who you are and how you live, Jacuzzi has the way to UNDO for you. With four hot tub collections and endless ways to customize your hot tub, you can be sure to UNDO the only way you know how.

## J-LX<sup>®</sup> Collection

Clean, simple lines frame the welcoming water of our newest product family. With our patent-pending IR and Red Light therapy taking hydrotherapy to the next level, we're leading the industry once again by creating the ultimate wellness experience.

Body and Mind

Feel yourself transformed

Immerse yourself in the experience that made us a household name.

Feel a weight lift at the mere thought of warm, bubbling water.

Let stress wash away as you step in. Emerge rejuvenated to take on the day. And let the long-lasting refreshing energy transform your body and mind.

From the beginning, Jacuzzi has been committed to building a better world through healing and transformation. To that end, we have established high-level commitments that support our vision of promoting lifelong well-being through sustainable innovation.
